About the workshop

Department of Chemistry of Gogate - Jogalekar College has an association with the Royal Society of Chemistry, West India Section and organizes workshops for Post-graduate students every year. This workshop is fourth in the series which will cover important topics in organic and inorganic chemistry from teaching, learning and research perspective. Eminent resource persons will deliver lectures on solid state chemistry, drug design, nanotechnology and stereochemistry.

The workshop is specially designed for post-graduate students and research scholars and will give them insights of topics with related research.
